EXPERIENCE

DRINKPRIME   (SEP 2023 - TODAY)

Drinkprime provides IoT-enabled customised water purifiers on a subscription basis, and Drinkprime currently serves more than one lakh users.

My Responsibility:
- A technical support engineer to provide support and monitoring for Drinkprime's critical production applications.
- Responsibility is to provide operational monitoring and triaging of all issues for applications and implement new solutions for existing problems in the system.
- Also act as a point of contact for customers in production...
